WATCH THE VIDEOS

GSR+ and GTM+ are professional electric mowers with **lithium-ion battery**. Designed to offer **high performance, low noise and zero emissions**, they are suited to the needs of both home users and professional maintenance operators. The GSR+ front mower ensures excellent mulching with rear discharge, wide visibility

over the work area and precision trimming for impeccable results.

The vertical positioning system of the deck allows **easy** access to the underside, simplifying **maintenance and cleaning**.

The cutting height is conveniently adjustable from on-board the machine by means of a rocker button.

Cutting width: 112 cm

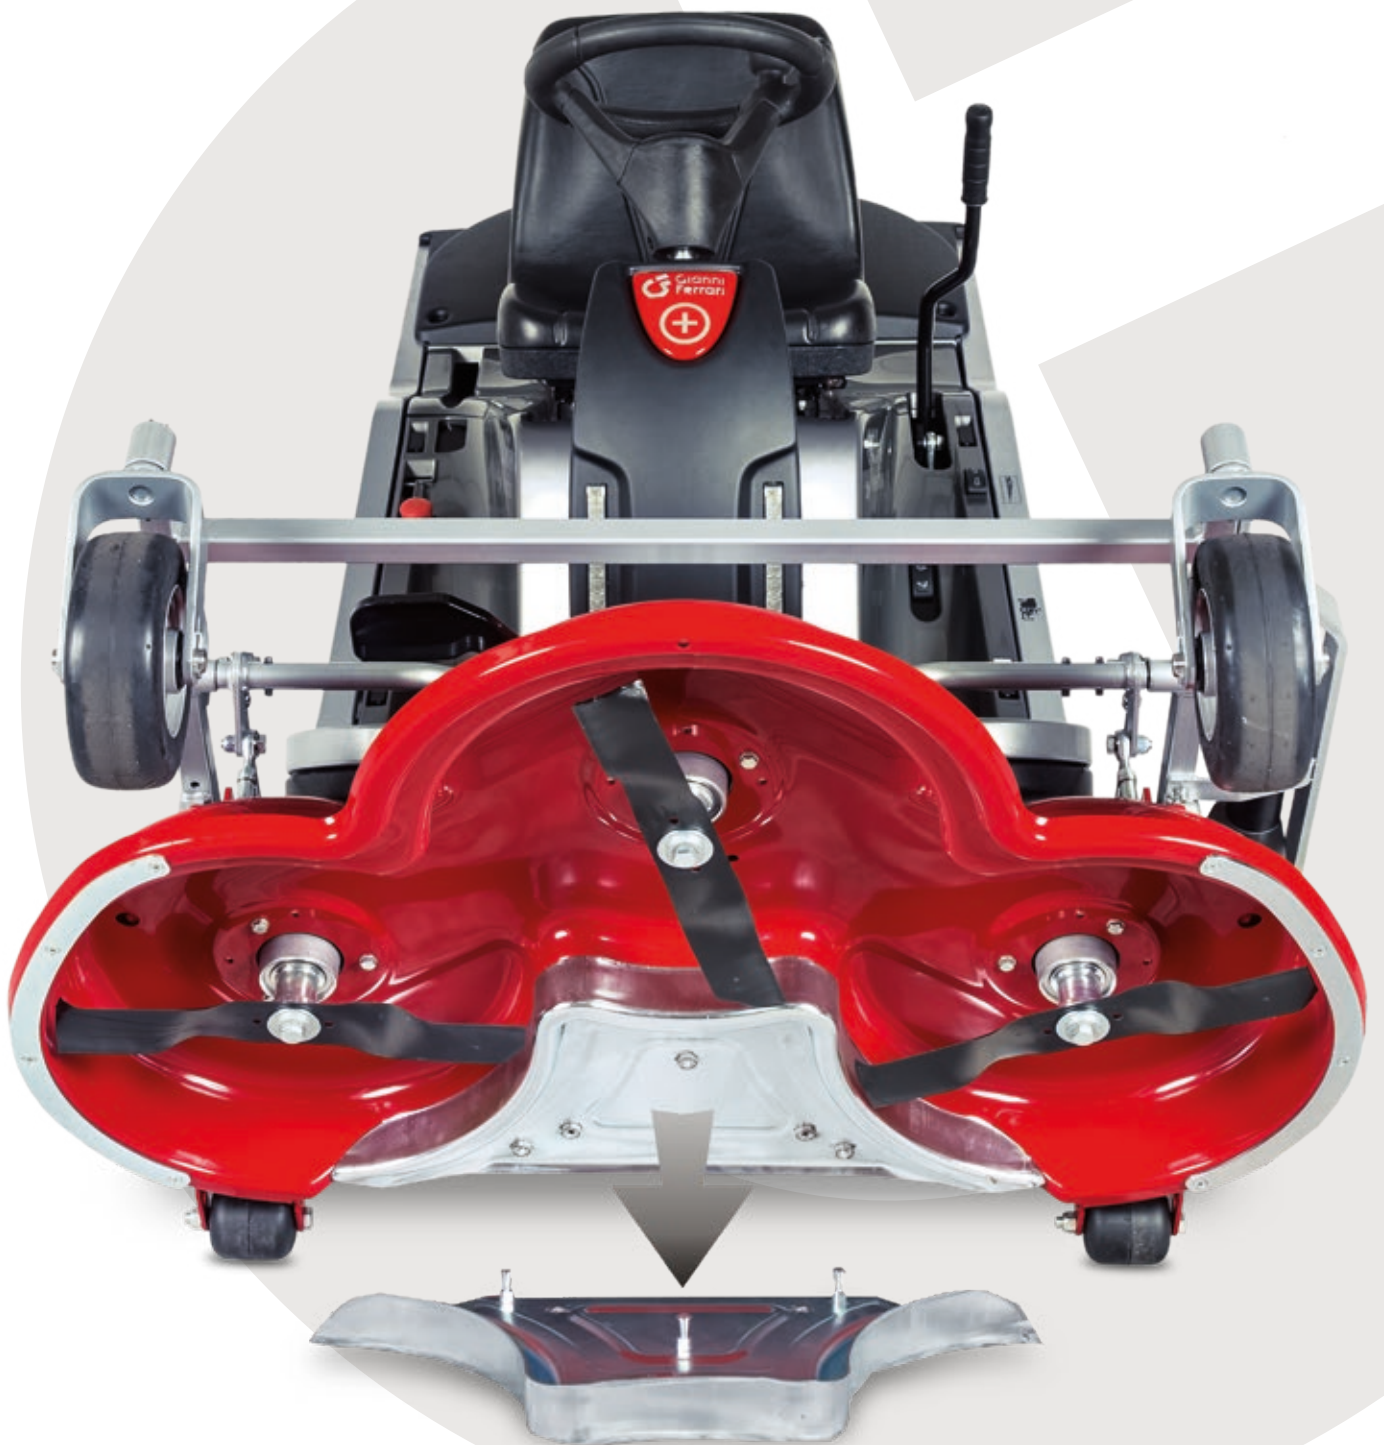

Battery: 120 Ah / 192 Ah

Speed: 10 km/h

Autonomy: 6-8 hours

The **small footprint** of the GTM+, in particular its 85 cm width, allows it to fit into **tight spaces and entrances**. Its small size is complemented by **comfort and convenience**.

Collector emptying is electrical, push-button operated, and **the cutting height** of the rear mower can be **adjusted from on-board the machine** by means of a convenient lever.

Both models are equipped with a **speed management system during cutting** to **save battery power consumption and at**

the same time ensure better efficiency when operating the blades.

Cutting width: 80 cm

Battery: 72 Ah / 144 Ah

Speed: 10 km/h

Autonomy: 6-8 hours

Technical features

Model	GSR + STANDARD RANGE	GSR + LONG RANGE
Battery		
Type of battery	Lithium-ion 54 V 120 Ah 6,8 kWh	Lithium-ion 54 V 192 Ah 11 kWh
Charging time	3,5 hours	5,5 hours
Charging system	Integrated battery charger with cable	Integrated battery charger with cable
Autonomy	6-8 hours depending on working conditions	6-8 hours depending on working conditions
Transmission		
Transmission type	Electrical	Electrical
Forward speed	10 km/h	10 km/h
Forward / Reverse motion	Single pedal operation	Single pedal operation
Driving wheels	2WD, front traction	2WD, front traction
Engine drive	Electric 1,2 kW	Electric 1,2 kW
Brakes	Electromagnetic on transmission engine with automatic drive	Electromagnetic on transmission engine with automatic drive
Steering	Mechanical steering	Mechanical steering
Cutting system		
Type of cutting	Mulching with possible rear discharge	Mulching with possible rear discharge
Cutting width	112 cm	112 cm
Blades	Three-blade deck	Three-blade deck
Blade engine	Electrical 9 kW	Electrical 9 kW
Cutting height adjustment	Electrical push-button	Electrical push-button
Deck verticalisation	Mechanical and electrical with use of a lever and a button	Mechanical and electrical with use of a lever and a button
Dimensions and weight		
Front wheels	16×7.50-8	16×7.50-8
Rear wheels	140-6	140-6
Length / Width / Height	255×112×135 cm	255×112×135 cm
Weight empty	375 kg	395 kg

Technical features

Front wheels	13×5.00-6	13×5.00-6
Rear wheels	16×7.50-8	16×7.50-8
Length / Width / Height	202×85×122 cm	202×85×122 cm
Weight empty	266 kg	286 kg

SIDE DISCHARGE KIT

GTM+ Electric also allows cutting with side discharge by making a slight variation in deck opening.

MULCHING CLOSURE

The addition of a protective blade/closing the loading channel and removing the plastic shaped bottom of the collector also allow the operator to use the rear discharge.
